

BENTLEY LICENSING GROUP

Bentley Licensing Group's portfolio offers a wide selection of images from traditional to contemporary designs. Leading the way with exceptional designs and working with manufacturers to create top selling collections is key to our success. Our unique partnering with parent company, Bentley Publishing Group, a fine art publisher, provides us with images incorporating the latest design trends.

Bentley will be introducing new designs at this year's Surtex show, from new artists as well as from our top selling artists. Two artist collections that are garnering a lot of attention are photographers Alicia Bock and Robert Dawson. Alicia Bock, an emerging photographer, describes her style of photography as "fresh

and modern with vintage inspiration". She was featured in the December 2007 issue of DÉCOR magazine in the "Artists to Watch in 2008" cover story and has been published in a number of other magazines including "People" magazine. Her art is featured on several design websites and can be found in private collections throughout the world. Alicia's art bridges nostalgia with a fresh and contemporary approach. Her ability to take everyday subjects and present them in a modern, yet romantic way is among the most exciting aspects of her art.

Her textures are irresistibly soft and her colors are both vibrant and translucent. Upcoming product releases with Alicia's artwork are decorative photo frame gifts and stationery products.

Western art continues to be one of the hottest trends on the market and Bentley Licensing Group has one of the hottest artists feeding into that arena. Robert Dawson is recognized around the country for using only his skills and natural lighting to bring life into his photographs of American cowboys and their horses. His romance with the West started as a young boy growing up in Texas and has taken him to some of the most beautiful and wildest places in America. His talent of working with natural light and composition are sought out by major clients wishing to capture a unique angle of the West that will compliment their products. Evergreen/Cypress Home and Cape Craftsman introduced Kitchen/Home

Accessories and Home Décor Products at their 2008 winter shows and are currently adding new product categories. Robert's images can also be found on product from Leanin' Tree, Art Brands and Pendleton Woolen Mills.

A new offering from Bentley Licensing Group is the Wallquest Collection. This unique library of images is right on trend with today's fashion and home décor industries. The collection originated from Lyon, France, back in the early

1800's, and many of the original designs are still incorporated into the artwork today. Colors have been updated and themes expanded to our current offering of over 10,000 images!

This collection is a contemporary graphic statement in today's modern color palette. The transitional styling of the patterns in this collection range from bold to subtle damasks, over scaled florals, retro patterns and nature designs. Vintage inspired, but designed to be modern with combinations of classic motifs with dropped out silhouettes, funky retro patterns, elegant classic florals, harlequin and paisley, Jacobean, ironwork patterns, toile and much more are just a few of the collections image offerings. The product possibilities with this extraordinary library of images are endless.

Bentley Licensing Group continues to be a leader in the art licensing industry. Don't miss your opportunity to work with the best.
